

Aggregator / Comparison-Site Investigation

Date: 2 July 2026. Detail: `agent_reports/agent5_aggregators.md` (AGG-01–AGG-12), supported by NUM-16, WB-10/11, SE-09/10.

Headline conclusions

- 1. **No aggregator page displays Prima Insurance Brokers' phone numbers, email or address in connection with Hello Prima / Prima car insurance** (AGG-12). This is a clear negative finding, stated as required by the brief.
- 2. **No aggregator that lists the insurer uses the name "Hello Prima", and none publishes any contact details for it.** The consumer is handed the bare brand word "Prima" and left to find contact details by searching the open web (Category J ambiguity) — where the broker's details dominate (see `search_journey_report.md`).
- 3. The most significant mis-routing evidence sits **outside** the major aggregators, on SEO "contact directory" and claims-management pages (kaeltripton.com, claimsnumber.com).

How each site describes Prima / Hello Prima

Aggreg ator	Public Prima listing?	Exact brand name used	Contac t details shown	Notes
Go.Co mpare	Yes — car-insurance providers directory	"Prima Car Insurance"	None	Listed since ≥ 25 May 2025 (Wayback, AGG-07). Go.Compare's contact page: "Go.Compare is a comparison website and not an insurer or a broker... you buy it from the insurer" — post-sale queries pushed to "Prima" with no details (AGG-02)
Compa re the Market	Uninspecta ble	n/a	n/a	Live pages Cloudflare-blocked; nothing indexed; zero Wayback snapshots — though Trustpilot reviewers confirm buying Prima via CtM (AGG-05)
Confus ed.com	Yes — two provider directories	"Prima", "Prima Essentials", "Prima Plus", "Prima Premier"	None	Bare names only (AGG-03)
Money SuperM arket	No	n/a	n/a	Providers directory omits Prima despite reviewers buying there (AGG-06)
Quotez one	No (current provider list)	n/a	n/a	But historical "Prima Car Insurance Review" page archived 2024–2025 calls the insurer simply "Prima", no contact details (WB-10)
Uswitch	Yes — providers table	"Prima" + Essentials/Plus/P remier	None	(AGG-04)
Mustar d / Money. co.uk	No mention found	n/a	n/a	SERP no-result evidence

Aggregator	Public Prima listing?	Exact brand name used	Contact details shown	Notes
Which?	No — not among 25 insurers reviewed	n/a	n/a	
Defaqto	No consumer page indexed	n/a	n/a	Despite helloprima.co.uk advertising "5 Star Defaqto" ratings

Third-party contact/claims pages found via aggregator-pattern queries

- **kaeltripton.com** — "Prima Car Insurance Contact UK 2026: Phone, Claims & Complaints": describes Prima as an FCA-authorised motor insurance provider and directs customer service, 24/7 claims and FCA complaints to **primainsurance.co.uk** (11+ hyperlinked references; "Prima official website: primainsurance.co.uk" in its sources; helloprima.co.uk never mentioned). Strongest routing-confusion capture (AGG-08). **Caveat:** links carry `?ref=kaeltripton.com rel="sponsored nofollow"` — possible affiliate/paid markup; check for any commercial relationship before relying on it as independent evidence.
- **claimsnumber.com/prima/** — "Prima Car Insurance Accident Claim Contact Phone Number **0333 006 4465**" — a claims-management company's own line presented as the Prima accident number (AGG-09).
- **freepricecompare.com**, **fairerfinance.com**, **procustomer.co.uk**, **tradersunion.com** — use bare "Prima"/"Prima Insurance Company" branding for the insurer; Traders Union's review page for helloprima.co.uk lists primainsurance.co.uk in its own comparison table (AGG-10/11, REV-14–16).

Is any aggregator causing confusion?

On the evidence captured: the major aggregators do not publish wrong contact details — their contribution to confusion is **selling the product under the undifferentiated name "Prima" (or "Prima Car Insurance") with no contact route**, which combines with Hello Prima's own absent/hidden phone number and "Prima Insurance" page titles to push post-sale customers into open-web searches dominated by the broker's details. Whether an aggregator's *post-sale account area or policy documents* show ambiguous details could not be tested (out of bounds — no accounts/quote journeys were created).

Gaps

Compare the Market entirely uninspectable (AGG-05); quote journeys and logged-in areas out of scope; several site: queries returned nothing on DuckDuckGo and were re-run on Bing (documented in the agent report).
